No maintenance. No headaches.

All vehicles are stored, insured and maintained by our reliable partners at secure locations in Germany.

Own a piece of automotive history

Shares represent true ownership of the car in which you choose to invest.

Collectible cars - a smart economic investment class.

Over recent decades investments in collectible cars have collectively outperformed major Global equities. Since 2010, the asset class has returned an average of 12% in performance while having a low correlation to stocks and bonds.

All investments carry risks and those on our platform are no different, so it's important that you understand them. The value of your investment can fluctuate, up and down. Furthermore, collector cars are real-life assets, and while that's part of their appeal, it brings risks.

The information on this website is for advertising purposes only. It does not represent financial or other investment advice and cannot replace investor and investment advice based on the individual circumstances of the investor. Offered assets are limited to a financing volume of €100,000 each. A brochure obligation does not apply according to § 2 Abs. 2 S. 1 VermAnfG. Our offer is directed at persons who have their domicile or habitual residence in the Federal Republic of Germany.
